NEW PRINCE SHRI BHAVANI COLLEGE OF ENGINEERING AND TECHNOLOGY

Affiliated to Anna University | Approved by AICTE | Accredited by NAAC
Tambaram - Velachery Main Road, Santhosapuram, Chennai-600 073.

Comments :

1. Due to a low percentage of student satisfaction in the area of "Teacher completes the syllabus on time," it is recommended that Mr. Shankar to ensure the completion of the "CE8501 - Design of Reinforced Cement Concrete Elements" syllabus within the stipulated period.
2. In response to the low percentage of satisfaction regarding "Teacher encourages participation and discussion," it is recommended that Dr. K. Karthik and Mr.A.Sekar initiate and promote more class discussions during the Water Supply Engineering and OML751 Testing of Materials sessions respectively.
3. Given the low score for "The instructional materials increased my knowledge and skills in the subject matter" in the Foundation Engineering course, it is recommended that Ms. S. Subathra to provide clearer and more detailed notes to the students.
4. Students have specifically requested clearer notes for the subjects "CE8501 - Design of Reinforced Cement Concrete Elements" , " CE8701 Estimation, Costing and Valuation Engineering" and "OR0551 - Renewable Energy Sources."

Comments :

1. **Mr. Shankar** has successfully ensured the timely completion of the syllabus for "**CE8501 - Design of Reinforced Cement Concrete Elements**," resulting in a 44.45% increase in student satisfaction related to syllabus completion.
2. **Dr. K. Karthik and Mr.A.Sekar** have significantly enhanced student engagement by initiating and promoting more class discussions in the Water Supply Engineering sessions and OML751 Testing of Materials, leading to a 30% and 9% improvement respectively in student satisfaction regarding participation and discussion.
3. **Ms. S. Subathra** has addressed concerns by providing clearer and more detailed notes for the "**CE8591 Foundation Engineering**" course, which has resulted in a 33.33% increase in the percentage of students who feel that instructional materials have effectively increased their knowledge and skills.
4. **Mr.N.Shankar and Mr.V.Sivakumar** have also improved the clarity of notes for "**CE8501 - Design of Reinforced Cement Concrete Elements**" and "**OR0551 - Renewable Energy Sources**," leading to a 20% and 10% increase in student satisfaction with the quality and clarity of course materials.
5. **Dr.V.KANAKASABAI** also improved the clarity of notes for "CE8701 Estimation, Costing and Valuation Engineering" leading to 10% increase in student satisfaction with the quality and clarity of course materials.
6. To address the low percentage of student interest in the CE8591 Foundation Engineering, CE8511 Soil Mechanics Laboratory and OR0551 Renewable Energy Sources courses, the respective faculties are encouraged to enhance engagement by incorporating additional case studies and organizing workshops. These activities should aim to demonstrate the practical applications and relevance of the subject matter, thereby increasing student interest and involvement.

Comments :

1. Dr. K. Karthik is advised to actively initiate discussions in class to enhance participation and engagement, as this area showed lower performance.
2. Mr. Sivakumar is recommended to incorporate diverse teaching pedagogies, ensure the syllabus is fully covered, provide instructional materials, initiate class discussions, and conduct additional practice sessions for the CE8601 Design of Steel Structural Elements course.
3. Mrs. G. Swarnalakshmi is advised to employ effective teaching pedagogies and increase the frequency of practice sessions for the CE8602 Structural Analysis – II course.
4. Ms. S. Subathra is recommended to thoroughly prepare for classes in the GE8075 Intellectual Property Rights course and to provide comprehensive notes for the GE8076 Professional Ethics in Engineering course.
5. Mr. N. Shankar is advised to be punctual, provide necessary materials for the CE8611 Highway Engineering Laboratory course, and ensure timely completion of the syllabus for the CE8603 Irrigation Engineering course.
6. Dr. V. Kanakasabai is advised to maintain punctuality for the CE8811 Project Work course classes.

Comments :

1. Dr. K. Karthik has failed to make necessary improvements in initiating discussions in class, resulting in continued low levels of participation and engagement.
2. Mr. Sivakumar has successfully addressed all recommendations, resulting in a 30% improvement in syllabus coverage, a 20% increase in the effectiveness of diverse teaching pedagogies, and a 10% rise in student engagement through class discussions and additional practice sessions for the CE8601 Design of Steel Structural Elements course.
3. Mrs. G. Swarnalakshmi has enhanced the teaching experience for the CE8602 Structural Analysis – II course, with a 27% improvement in the application of effective teaching pedagogies and no increase in the frequency of practice sessions.
4. Ms. S. Subathra has made notable progress by improving class preparation for the GE8075 Intellectual Property Rights course by 22% and providing comprehensive notes for the GE8076 Professional Ethics in Engineering course, which has led to a 9% increase in student satisfaction.
5. Mr. N. Shankar has improved punctuality and resource provision for the CE8611 Highway Engineering Laboratory course, with a 20% increase in on-time material availability and for the CE8603 Irrigation Engineering course, a 20% improvement in syllabus completion and a remarkable improvement in other areas too.
6. Dr. V. Kanakasabai has achieved a 5% improvement in punctuality for the CE8811 Project Work course classes, enhancing overall class management and timeliness.

Corrective action and Rewards:

1. **Dr.V.KANAKASABAI and Ms.S.SUBATHRA** secured top two places based on the consolidated report and they will be rewarded.
2. **Dr.K.Karthik and Mr.N.Shankar** secured least two places and they are requested to concentrate more on respective areas.
